Salad Girl® manufactures seven vibrant and delicious flavors of certified organic salad dressings; Savory Strawberry, Lemony Herb, Blueberry Basil, Pomegranite Pear, Curry Fig, Crisp Apple Maple, and Sunny Pear (THE kids favorite!). Salad Girl® selects and resources the freshest pick and highest quality of organic ingredients available locally for its products. Because Salad Girl® wanted to maintain both its fresh flavor profile and nutritional value, they decided to forgo the “industry standard” of adding water, thickeners and heat processing their salad dressing, which always results in cooking the enzymes, nutrients and fresh flavors right out of the product. Instead, Salad Girl chose to process its dressings in an innovative “fresh and raw” cold processing method which allows its finished product to retain its fresh natural “just picked” flavor profile, as well as all of its important enzymes, vitamins, minerals and proteins. Salad Girl® organic dressings are the first and only organic salad dressings manufactured here in Minnesota. Salad Girl® Dressing stands out as one of the very few organic salad dressings on the grocery store refrigerated shelf. Salad Girl’s trendsetting flavors, organic ingredients and colorful graphics as well as its eco-minded 8 oz. container present the customer with a “no waste” and fun choice for purchasing a healthy, safe and economical” fresh salad dressing for fresh greens”. All dressings are gluten/soy free and vegan. We offer sustainable packaging, local manufacturing, a commitment to give back to our community, and a pledge of doing business with integrity, whimsy and joy!
